An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1, line 11, change "scanned" to – scan – for proper antecedent basis.

In the specification, p. 6 line 31, change "bible" to –Bible–.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gerou discloses a speed reading system with words arranged in columns with some words in boldface.

The following is an examiner's statement of reasons for allowance: None of the prior art of record shows a speed reading system comprising a scan bar with a plurality of printed lines of indicia extending perpendicular to said scan bar and selected printed lines of indicia having a plurality of grouped scan words therein, each scan word being in a different type font and in a bolder and larger type than each non-scan word and each group of said grouped scan words being positioned with the first scan word in each group of scan words in one line being adjacent said vertically extending scan bar, and in combination with a plurality of scan line indicators as claimed.
